HARVEY JONES

Harvey Jones has been crafting kitchens using the finest traditional techniques for over 40 years. As specialists in handmade, hand-painted furniture our designers and craftsmen work with you to create a truly unique kitchen to suit your lifestyle. A space for you to cook, live, work, entertain and socialise with family and friends.

Starting with the FORM of your kitchen; choose from our five timeless, elegant styles. Then on to FUNCTION; we can tailor your kitchen to your lifestyle with creative configurations and resourceful storage solutions. Lastly, FINISH; personalising your kitchen with an unlimited choice of paint colours, worktops, appliances, sinks, taps and handles to realise your vision.

We promise a beautiful individually crafted kitchen of superior strength and quality from an experienced name, built on trust and reputation.

Each of our handmade kitchens is made to order in our Cambridgeshire workshop, using premium materials and traditional joinery techniques.

Every individually crafted kitchen begins life in our Cambridgeshire workshop. This means we can tailor the size of your cupboards to fit your space and work with you to incorporate innovative storage mechanisms and even design bespoke storage solutions for specific items.

We are proud of the quality and durability of the kitchens we craft. We are so confident in our furniture's quality that we guarantee the kitchens we install and paint for a period of 10 years. Find out more about our 10-year guarantee at harveyjones.com or in-store.

As part of our ongoing commitment to ensuring customer satisfaction, we are full members of The Furniture & Home Improvement Ombudsman. They are an independent body that works to raise standards offered by retailers and manufacturers within the furniture sector and to increase consumer confidence. As a member, you can be assured that we will abide by their code of practice allowing you to shop with confidence. Find out more at: fhio.org

Our kitchens are carefully and precisely constructed to offer unrivalled durability. We use time-honoured joinery techniques to ensure every kitchen remains beautiful with perfect function for years to come.

The secret of all of our kitchens is that each cabinet is a fully handmade, six-sided piece of furniture built using a traditional framed construction. We set our doors into hardwood frames and secure them with the strongest hinges, creating a wood-to-wood bond that ensures that they will never drop - no matter how much they are used. Each cabinet is biscuit joined, screwed and pressure-glued to maintain maximum rigidity.

All of our drawer boxes are solid hardwood and have traditional dovetail jointing at both the front and back for ultimate longevity.

We do everything we can to minimise our impact on the environment. A key part of this is having our workshop in the UK, which affords us complete control over manufacture and also minimises transport emissions.

We regularly review our supply chains and our production processes are carefully managed to minimise any wastage of raw materials.

As we handcraft our cabinetry none of our styles will be discontinued and can be updated for years to come. This means that there is no need to contribute to landfill such as with disposable kitchens.

We also have extensive recycling schemes within the workshop and our showrooms. From sourcing our timber from responsibly managed forests to traditionally blanket-wrapping our kitchens when we deliver them to reduce wasteful packaging, we do what we can to take care of our planet.

FORM

We offer five beautifully crafted, timeless designs. Whether modern and contemporary or uncompromisingly classic, our range of cabinetry styles has been developed with endless possibilities whilst sharing the same outstanding quality and durability.

We are dedicated to designing kitchens that add interest and are uniquely personal, promising to make a lasting impression that you will love year after year. With so many design combinations to choose from, the only limit is your imagination.

Shaker

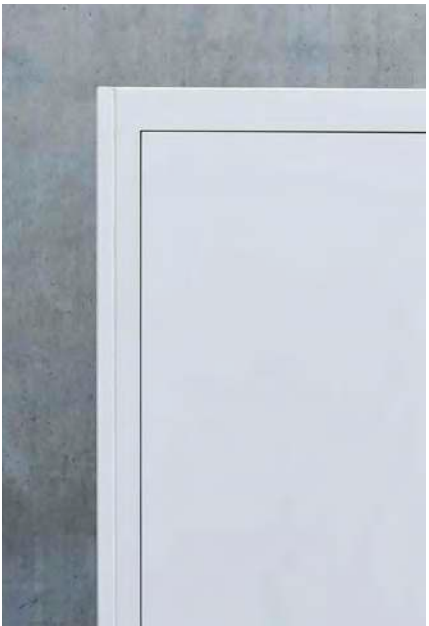

Original

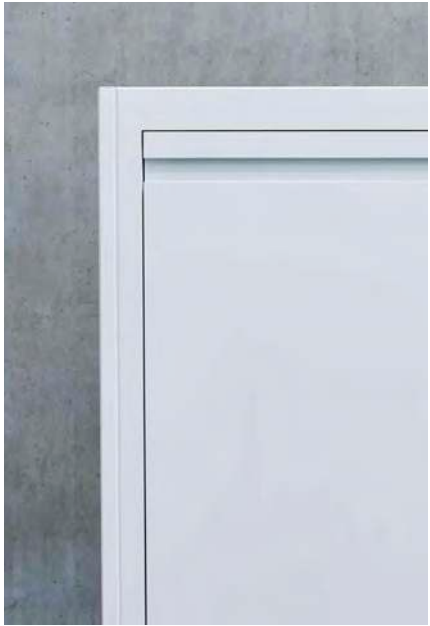

Arbor

Our famous Shaker design remains a firm favourite with its classic, balanced proportions. The Original range adds a layer of traditional character with delicate detailing. Arbor blends the simplicity of Shaker with touches inspired by our Original range.

Linear

Linear Edge

Our Linear kitchen is modern and minimal with uninterrupted lines for a seamless design. Our Linear Edge kitchens provide a clean, sleek aesthetic in a contemporary handleless design.

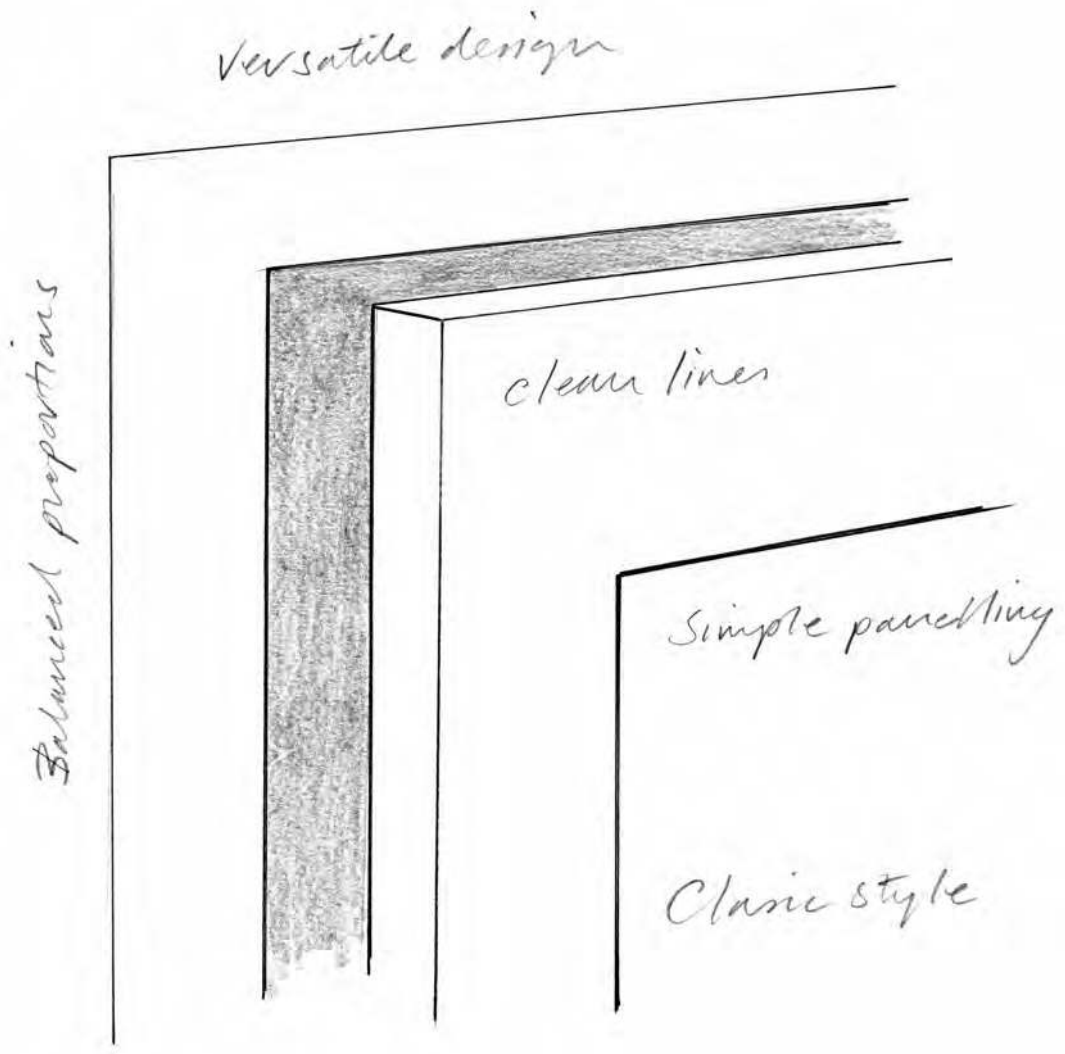

Colour

Our kitchens arrive from our Cambridgeshire workshop primed with two coats of a tough primer ready for hand-painting. You can choose any colour you want! Be brave with bold, bright hues or even a pattern. Alternatively, use timeless, neutral shades or a combination of complementary tones for a look unique to you. Choosing your kitchen colour in-situ ensures it works harmoniously with your wall colour, flooring choice and the room's lighting.

You will never need to replace your kitchen again as our hand-painted furniture can be easily updated to match your evolving style or future trends, giving you the option of completely changing the look of your room without the upheaval of replacing the cabinetry.

Shaker

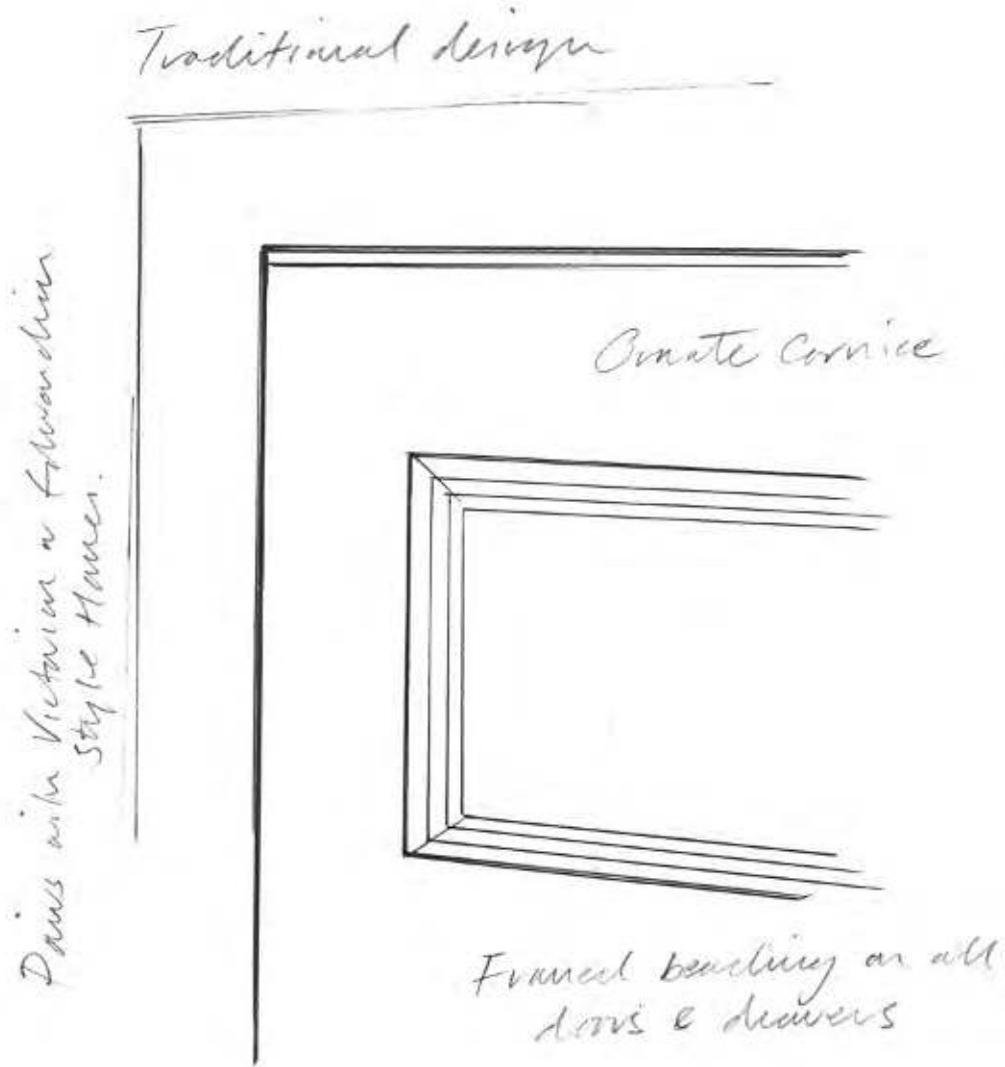

Our talented designers have the knowledge and expertise to help you create a kitchen island perfectly suited to your space and lifestyle; whether it be a practical workspace incorporating sinks or hobs or simply somewhere for the family and friends to gather.

Clever storage solutions are essential to planning your kitchen configuration. Our skilful and imaginative designers will offer advice and inspirational ideas from deep drawers for pots and pans, to pull out baskets for easy access and our built in larder to store ingredients. One off storage solutions can be individually crafted to suit your most exacting requirements.

Original

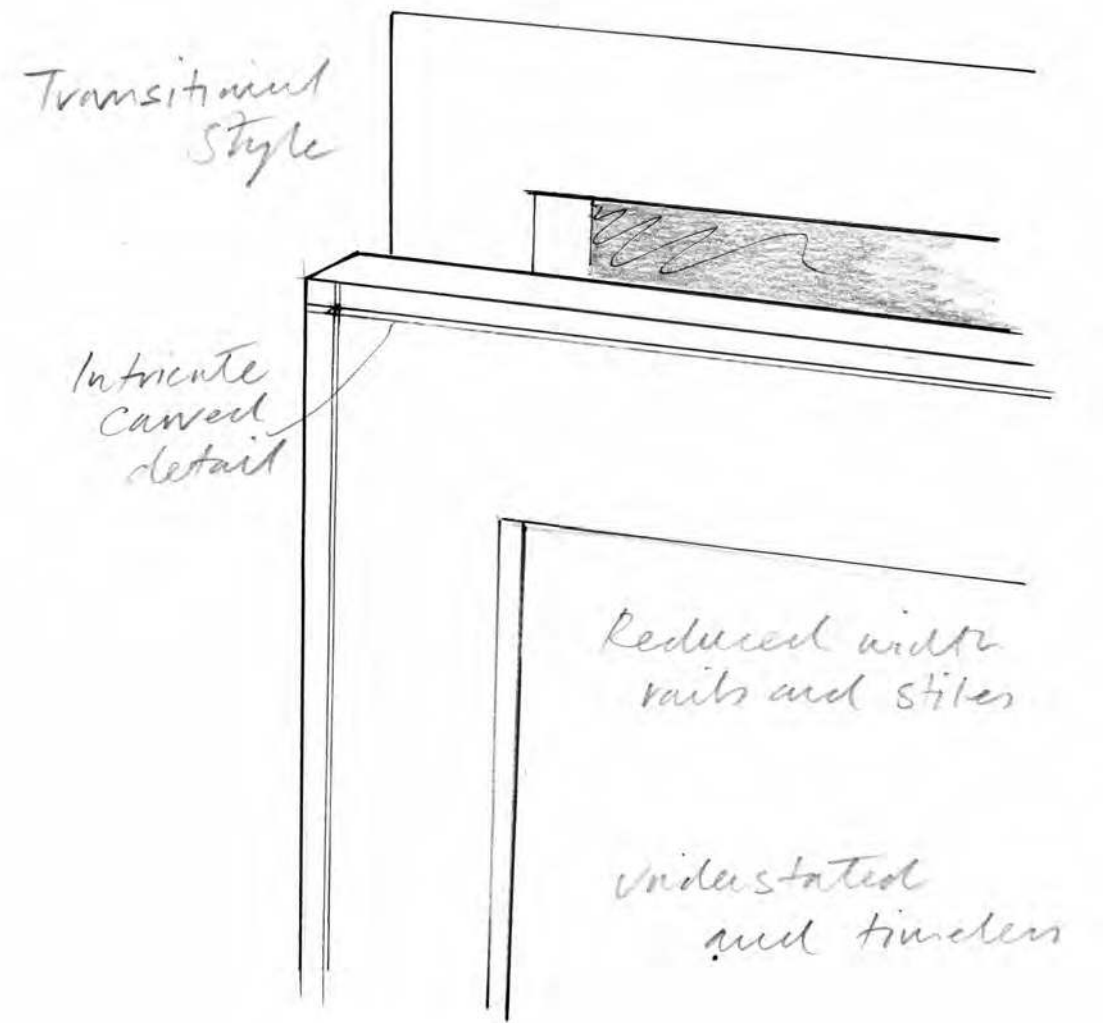

Your Harvey Jones kitchen can be crafted into a multi-functional space to be enjoyed by the whole family. Our bench seating has been carefully designed to provide a comfortable and sociable seating area inspired by the continued growth and popularity of open-plan living.

Depending on your space, you may prefer a slightly softer take on our Original kitchen range. We can achieve this appearance by removing the traditional beading to provide a slimmer profile. Our designers will walk you through all of our cabinetry details to ensure you achieve your dream kitchen.

Arbor

Storage is vital in any family or entertainer's kitchen. Utilise space, organise your kitchen essentials or showcase your favourite glassware and crockery in one of our statement dressers. They offer a touch of added luxury to any kitchen.

Our designers are always conscious of the latest kitchens trends. They are on hand to help guide your style decisions and provide you with the confidence to design using even the boldest material combinations. With your designer explore any selection of colour choices, worktop materials and layered features, balancing them to achieve a stunning and cohesive finished look.

Linear

Minimal & understated design

*Concealed
hinges*

*Flat-fronted
doors & drawers*

*Infinite selection
of handles.*

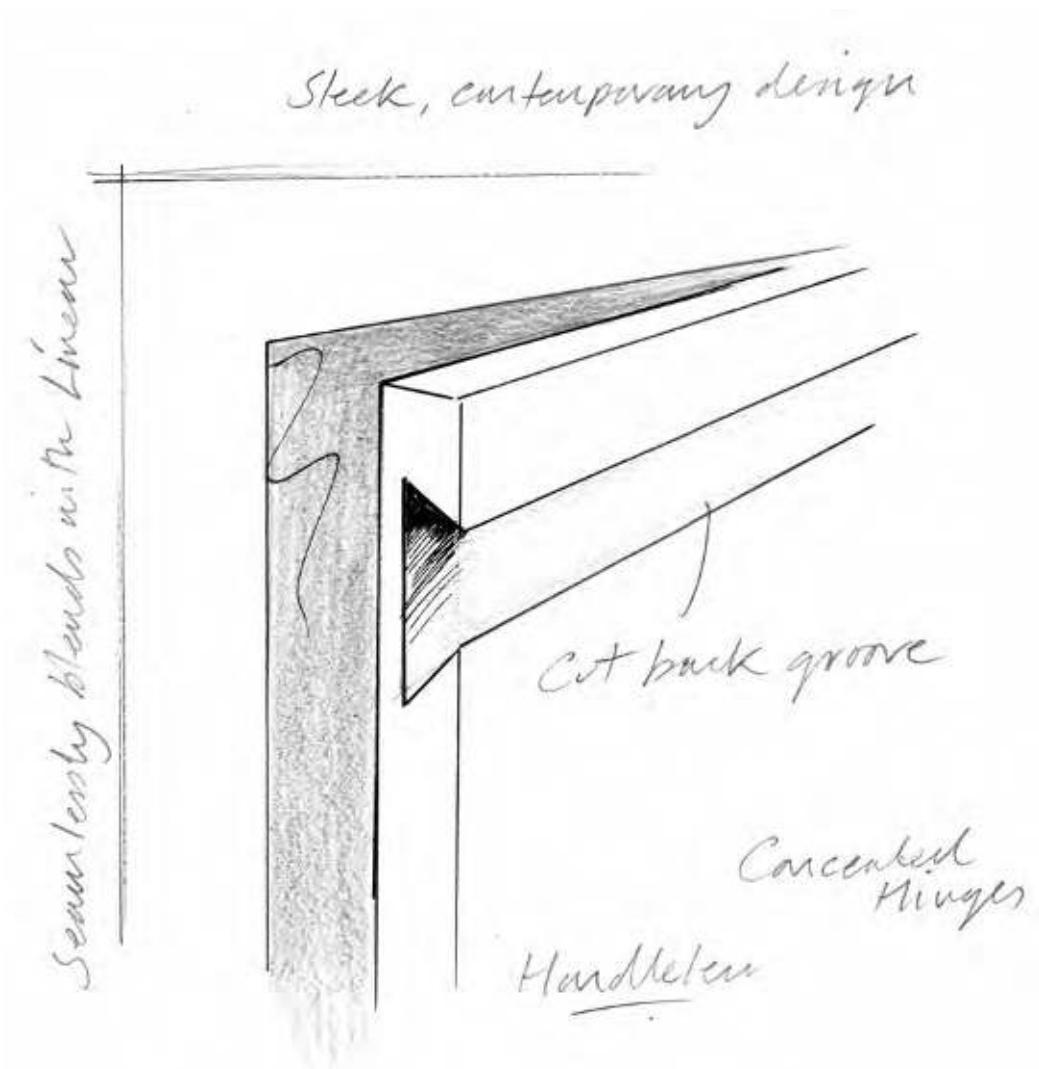

For another way to individualise your space that seamlessly crosses the boundaries of modern and classic design, pair two of our kitchen forms together. This kitchen combines both Linear and Shaker cabinetry for a harmonious and elegant design.

Sampling your colour in-situ offers you the ability to complement your walls and flooring decisions. Whether you want to colour match to a treasured item, achieve a stark contrast or try a tonal blend of more than one colour across your kitchen cabinetry, your designer will guide you through the decision making process.

Linear Edge

Our Linear ranges will allow you to be modern now and in the future as it can easily be updated with the latest colours, accessories and textures. By individually crafting our Linear kitchens to the same standards as our traditional cabinets we can create signature crisp clean lines that will remain true for the life of the kitchen.

We have partnered with renowned British furniture designer Sarah Kay to design and produce our exclusive Smile Stool. Handmade in the UK from sustainable ash timber, the stool is designed to provide a timeless and beautiful island seating solution. The stool has been awarded a prestigious Design Guild Mark by the Furniture Makers' Company for excellence in British design and manufacture.

FUNCTION

We carefully plan and tailor your kitchen to your individual needs. Discover a vast array of practical, functional and inspiring storage solutions to help you make the most of your space.

From our famous Pantry Larder and dovetailed removable cutlery trays, to sophisticated pull-out mechanisms and hand-crafted wine racks, we offer a wealth of clever storage options and luxury statement pieces to add extra special finishing touches to your beautiful new room.

FINISH

Finishing details

Our talented designers are experts in their field and on hand to support you with the important decisions to finish your kitchen. They are able to give you advice on the latest kitchen appliances, showcase a wide range of handle choices, walk you through the multitude of sink and tap options and help you navigate through worktop samples ranging from solid timber to natural stone and everything in between.

Your design journey

With the help of your dedicated designer, turn your kitchen dream into a reality. Starting with a complimentary consultation, we will explore a preliminary concept, provide you with a tailored quotation and opening plan set for your individually crafted kitchen.

Once you have commissioned us for your project, your designer remains your point of contact throughout, continuing to work with you to design the perfect layout, inspire your every choice and apply impeccable attention to detail. They will carry out site visits, work with your tradesmen and oversee the installation, and painting of your kitchen to our exacting standards.

We have cultivated an immersive SHOWROOM EXPERIENCE in our stores and online. Whether in your local store or through a virtual consultation, our designers work with your plans ensuring your future kitchen is what you desire. We are able to deliver our thoughtful space planning, furniture selection and layered design choices through whatever process best suits you.

After your kitchen has been delivered, installed and painted, your designer will conduct a final visit to ensure that your kitchen has been completed to showroom standards, that you are completely satisfied and issue your 10 year cabinetry guarantee.

Form reimagined

In future years as your tastes and needs evolve our kitchens are built to last and can be easily updated. You can achieve a completely different look or perhaps even consider changing the existing layout. Best of all you get to go through the enjoyment of choosing your finishing details all over again. Whatever you choose in the end, you will have a kitchen that is like new. Follow a trend or make bold design choices, knowing your kitchen can be restyled at any time.

Leatherhead,
Surrey

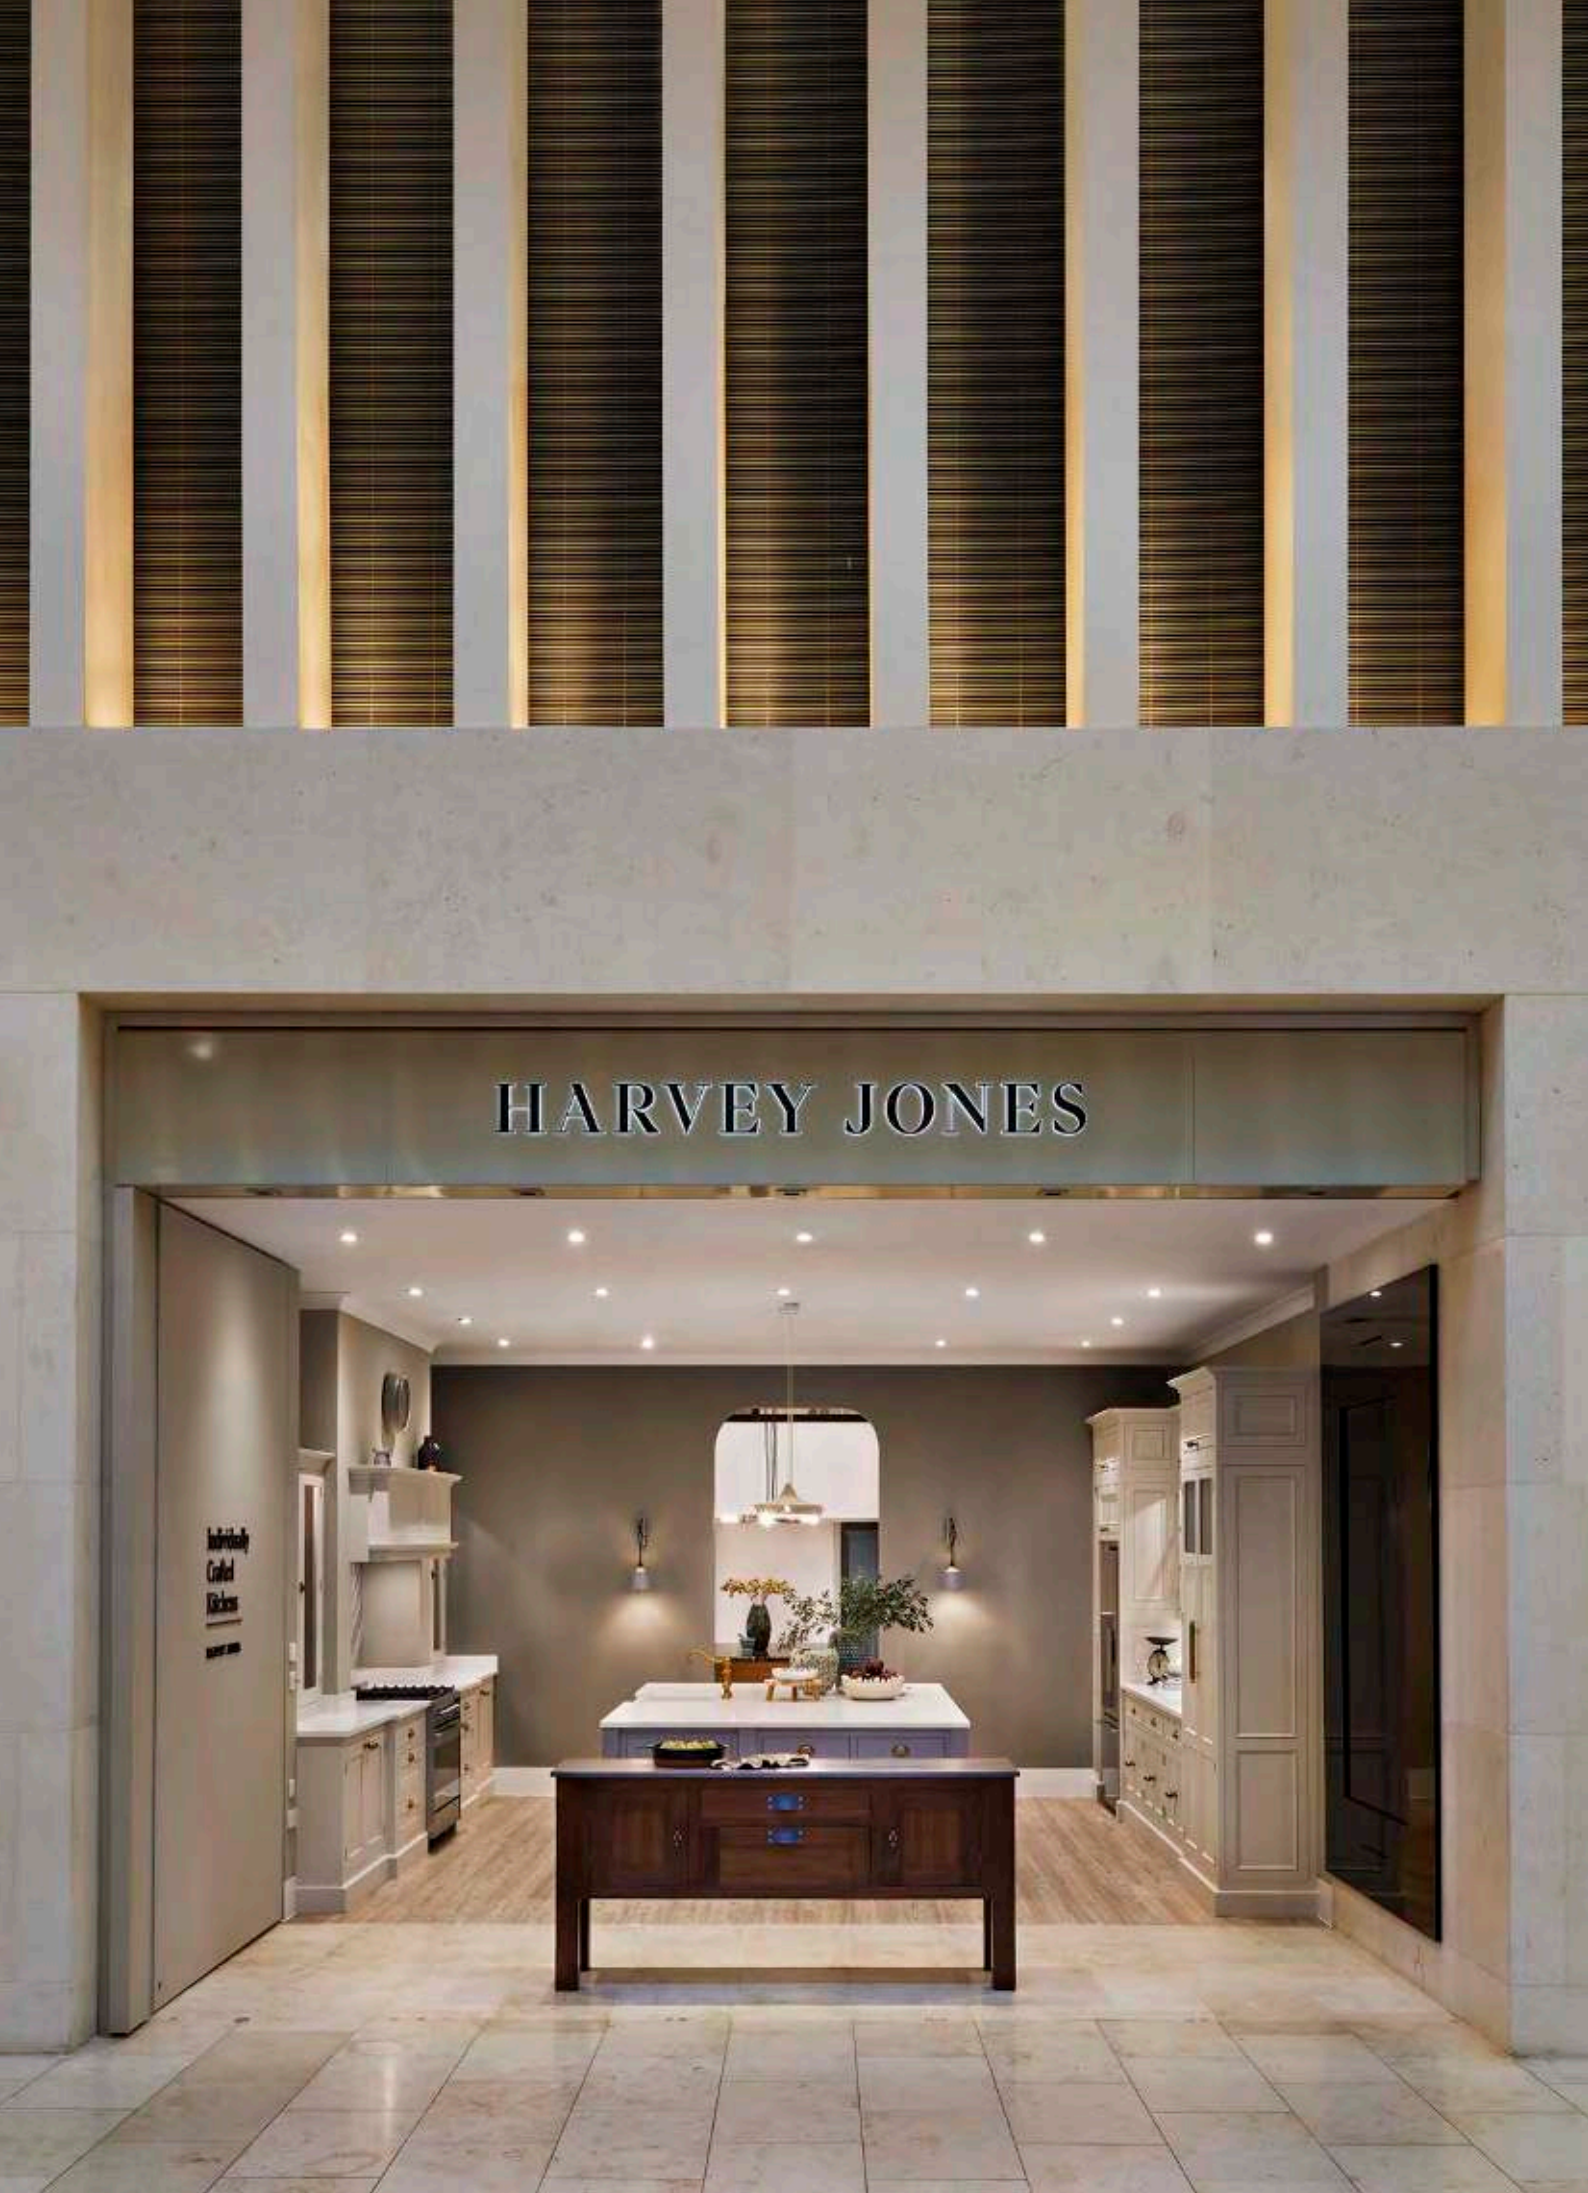

Kitchen Cabinet Repainting
Asked Harvey Jones team to arrange the repainting of our 8 year old kitchen. Amazing result. Like having our beautiful kitchen as new again. Just underlines the value of the original investment in our Harvey Jones kitchen that it can be returned to new in just a few days after all these years and be repeated again with options to bring new colours.
